Newsletter London November 2009

3 of our students from Australia join the wonderful London trip, Cameron, Georgina and Katelyn left from Vienna airport to explore a 4 days trip organized by LSC and STS Student Travel Schools.

They had the chance to see the musical “Mama Mia”, saw Madame Tussaud’s and explored the City of London with heaps of students who come from all over the world and came together to the City of London

Let me thank here Concy and the escort Glenn for organizing this trip

Hey katrin. got home fine. Only got 5 hours sleep before getting up for school :P its all good though.

Well here goes

We all had a great time in london. It was really good getting to see all the sights and getting to meet other exchange students living across europe and the uk. We had a great guide who showed us all of the things that we wanted to and we taught us how to get around that huge city so we could have free time. I recommend it to all. By Sir Cam Hunter the Great from Australia

"london was definitely a highlight.

the trip was great, the guide was awesome, and it was great to meet up with exchange students from all over europe.

the tour was amazing, and it was good to be able to have some free time to see what we were interested in." Georgina from Australia

"London was amazing.

It was great to meet all the exchange students from different countries and compare stories.

The best part of our time was the free time to travel around London." Katelyn from Australia

When the 3 arrived back home, they have been really tired, I went to the airport and picked them up, Katelyn and Georgina were ill :o(, Cameron was hungry :o)...and they still had a long train trip with the trains to their home town...thanks to the very nice host parents who picked them up late in the evening on the train stations...that was really nice!!!
